Description	Additional Information	Reviews (0)
Description		

These safety bingo cards have been used by thousands of businesses to reduce workers compensation expenses since 1992. Our small card is the original "credit card size" made from brightly colored, thick card stock. Perfect size for a wallet or billfold. **We now also offer a large regular size card measuring 3.7" X 4.25". Orders for our stock B-SAFE Bingo Cards require no minimums and ship the same day as ordered.**

Here are 7 reasons why our Safety Bingo Cards are a "best" value:

1. Our stock and custom safety bingo card prices are the lowest in the country, we will not be under sold!
2. All of our cards are printed right here in the USA, no foreign printing!
3. Order the exact number of cards you need, no need to buy "packs" of cards that may not be used.
4. No art / set up charge for custom cards or existing card reorders, saving you \$40 to \$50 per order.
5. Reordering is simple, just e-mail or call us. We keep all your order history on file.
6. Our cards are made of thick 65 lb. cardstock and are more "tear resistant" than the competition.
7. All individual games come in a different color at no extra charge.

Bingo Card

[Bingo Card Generator](#) [Bingo Cards](#) [Help](#) [Login/SignUp](#)

Generator

Instructions: Enter your bingo card title, choose a size, and type your words into the squares.

You can drag-and-drop images into the squares and customize the color scheme.

To generate your bingo cards, click the "Generate" button.

Afterwards, you can print your bingo cards, or play a virtual bingo game.

Features

- **New!** For [question/answer-style bingo](#), flip over the square to enter a question/clue (which will appear on the call list)
- **Drag and drop images** from your computer to liven up your card
- **Print** 10 bingo cards or 10,000 with 1, 2 or 4 bingo cards per page
- **Play virtual bingo** from a computer, tablet or smartphone
- Use the automatically generated random **call list** to conduct your game
- Decide if you want to fix your words/images to a single column (like in traditional bingo), or shuffle them across the entire card.
- Customize the size of your card with 5x5, 4x4 and 3x3 grids
- Add as many words/images as you want
- Choose whether you want a free space or not
- Calculate the probability of

<div style="position: absolute; top: 20780px; left: 20880px

other people can find and use it.

Hidden

Only people who know the URL can access your card, and it will not be indexed by search engines.

Private

Only you can access the card.

Generate

someone winning your bingo game after a certain number of calls

How do I generate bingo cards?

Enter the bingo title, select the size of your bingo card grid, and type your items into the squares. Whatever items you enter into the squares will be shuffled around when the bingo cards are generated.

You can add numbers (like in traditional bingo), words, phrases, or pictures to your card. You can also customize the colors of the squares, and the bingo card itself.

Tip: You can put text and an image into a square. Use the text shadow to make the text "pop" against the background image. You can also change the vertical alignment of the text in the square so it does not cover the important parts of the image.

If your center square is the free space (and should not be shuffled around the card), make sure you check the "The center square is the free space" checkbox. Only 5x5 and 3x3 have a free space.

By default, when your cards are generated, the items are shuffled over the *entire* card. In traditional bingo, items are fixed to a certain column (and only shuffled within their respective column). To enable that, check the "Shuffle items only within their column" checkbox.

How does question/answer-style bingo work?

When you create your card, you can flip over a square to enter a clue/question. Whatever you enter on the *back* of your square will appear in the call list for your bingo game. For example, to help kids learn animal words, you might put the word "Bear" on the front of the square, and a picture of the bear on the *back*. When you play the game, the image of the bear will appear in the call list for your students to see. If they recognize the literal word "Bear" on their card, they would mark it.

You can use question/answer-style bingo to quiz players about anything!

How many bingo cards can I generate?

A 5x5 bingo card can generate 15511210043330985984000000 unique cards. A 3x3 bingo card can produce only 362880 bingo cards. Cards are randomly generated, so the probability of getting a duplicate is infinitesimal on a 5x5 card.

How do I print bingo cards?

After [generating bingo cards](#) or finding an existing [bingo card](#), enter the number of cards you want to print, and select how many cards you want to print per page. You can print 1, 2 or 4 cards per page. Make sure you switch to landscape print mode on your printer to print 2 cards per page.

How do I play virtual bingo?

To play a virtual bingo game, simply send your players the bingo card URL. They can generate a virtual bingo card instantly. Here are more detailed [instructions to play virtual bingo](#).

How do I call items?

A call sheet is included with your bingo game. Simply read the items off in the order you see them. You can also print the call sheet, cut it out, and pull the items from a hat.

How many items should I put on my bingo card?

You should at least fill the entire bingo card grid. A [traditional number bingo card](#) has 75 items. You can add up to 350 squares to your card.

I need more help

See the [help page](#). But I strongly recommend you just play around. It's bingo. You won't break anything.

Re: Infringement of U.S. Trademark Registration Nos. 2,682,647, 3,032329 & 5,660,503

Mr. Johnson:

Please be advised that this firm represents Safety Star LLC (“Safety Star”) with respect to trademark-related matters. Safety Star is a leading provider of safety awareness programs and products for employers and workplaces.

Safety Star is the owner of U.S. Trademark Registration No. 2,682,647 for SAFETY STAR for “instruction sheets and posters designed to promote safety on the job”, U.S. Trademark Registration No. 3,032,329 for B-SAFE for “bingo-type game cards for use in promoting safety”, and U.S. Trademark Registration No. 5,660,503 for BSAFE BINGO for “board games designed to promote employee safety awareness” (collectively, the “Safety Star Trademarks”). A true and correct copy of these trademark registration certificates are attached for your review as Appendix A.

Safety Star has marketed and sold safety bingo products under the BSAFE and B-SAFE trademarks since at least 1992, and under the SAFETY STAR trademark since at least 2001. For example, attached as Appendix B is a copy of my Client’s BSAFE safety bingo card.

It has come to our attention that you are illegally using the Safety Star Trademarks on downloadable and printable safety bingo cards. *See Appendices C & D.* Your website at <bingobaker.com> states, among other things, “Find and customize one of the thousands of ready-made bingo cards, or create your own. Then print as many cards as you need.” *See Appendix E.*

Infringement of U.S. Trademark Registration Nos. 2,682,647, 3,032329 & 5,660,503
Matt Johnson

Customers, potential customers, and parties involved in the occupational and workplace safety industry are being misled into believing that your products and games bearing the Safety Star Trademarks are affiliated with, owned by, or approved by Safety Star. We thus consider your unauthorized uses of the Safety Star Trademarks to be an infringement of our rights.

Accordingly, we demand that you immediately:

- (1) Cease use of the trademarks BSAFE, B-SAFE, and SAFETY STAR on all products and games that you offer, whether digitally or in print;
- (3) Remove any branding, advertisements, or mentions of the trademarks BSAFE, B-SAFE, and SAFETY STAR from all business locations and any other physical locations where your products may be sold or advertised (such as distributors, re-sellers, and retail outlets);
- (4) Remove any branding, advertisements, or mentions of the trademarks BSAFE, B-SAFE, and SAFETY STAR from all online accounts, such as websites, blogs, social media handles, or otherwise, where your products may be sold or advertised;
- (5) Agree in writing to refrain from using the trademarks BSAFE, B-SAFE, and SAFETY STAR, or any mark or logo confusingly similar to any of my Client's trademarks, in the future, in any form, either digitally or in print; and
- (6) Prevent visitors of <bingobaker.com> from generating, printing, or otherwise creating any bingo cards bearing any of the trademarks BSAFE, B-SAFE, and SAFETY STAR.

Infringement of U.S. Trademark Registration Nos. 2,682,647, 3,032329 & 5,660,503
Matt Johnson

My Client is prepared to pursue all available legal remedies to protect and enforce its trademark rights under applicable state and federal laws. If I do not hear from you within ten (10) days of this letter to indicate compliance with the above requests, we shall assume that you have no interest in an amicable resolution. We will then have no choice but to pursue our legal remedies.

Nothing stated in or omitted from this letter shall be construed as a waiver of any of Safety Star's rights, all of which are expressly reserved.

Very truly yours,

Maulin V. Shah, Esq.
Attorney at Law

Search Tips

By default, BingoBaker will search the **title, and words/clues** for anything matching your query. Searches are case insensitive. But BingoBaker also has some advanced search operators you can use for better searching.

Quick Examples

```
+title:animals +created:[2020-10-01 TO 2020-10-31]
```

Find bingo cards with "animals" in the title, that were created during October, 2020

```
corpus:"milton friedman" -economics
```

Find bingo cards with a word or clue containing the exact phrase "milton friedman", but nothing in the BingoBaker mentions "economics".

```
corpus:(milton friedman) +created:[2020-01-01 TO *]
```

Find bingo cards with "milton" or "friedman" in any word/clue (with a preference for bingo cards containing both terms) that were created after the beginning of 2020.

```
"milton friedman"
```

Find bingo cards containing the exact phrase "Milton Friedman".

```
milton friedman +items:[50 TO *]
```

Find bingo cards containing the words milton or friedman (with a preference for bingo cards containing both terms) that have 50 or more words/images.

Should, Must and Must Not

You are probably used to using boolean operators like AND, OR and NOT for doing searches. BingoBaker uses different operators **+** (MUST) and **-** (MUST NOT). A space is implicit for the SHOULD operator.

Examples

```
sin cos tan
```

At least one of those terms must be in the card, with a preference for bingo cards that include more matching terms. These terms are implicitly joined with a space (which is the SHOULD operator).

```
Milton +Friedman
```

The term "Friedman" *must* be in the card somewhere, with a preference for bingo cards that mention "Milton" too.

```
Economics economy -Friedman
```

Find bingo cards that mention economics or economy that don't mention "Friedman" at all.

You can also use parentheses for grouping.

```
Economics economy -(Friedman Hayek)
```

Find bingo cards that mention economics or economy that don't mention "Friedman" nor "Hayek" at all.

Field Specific Searches (title, corpus, created, images, words, items, clues)

title:(american history) searches for bingo cards that have "american" or "history" in the title. The **parentheses are required if you enter multiple words**. Without parentheses, **title:american history** would find bingo cards with "american" in the title, or "history" *anywhere* within the card.

corpus:"como se llama" finds bingo cards with that exact phrase in any of the words/clues (the **corpus** field encompasses every word/clue).

created:[2020-10-31 TO *] finds bingo cards created on or after Halloween 2020.

created:{2020-10-31 TO 2020-12-31} finds bingo cards created after Halloween 2020, but before the new year (use {} for exclusive ranges, and [] for inclusive ranges).

words:[50 TO 100] finds bingo cards with 50 to 100 words (inclusive).

images:[5 TO *] finds bingo cards with 5 or more images.

items:[75 TO *] finds bingo cards with 75 or more words or images.

clues:[25 TO *] finds bingo cards with 25 or more clues.

Note: The free space does not count towards the words/images/items/clues count.
